

IGENITY® Price Guide

for dairy

The IGENITY profile.
**Inside
information**
to help you achieve
goals faster.

IGENITY® Profile **\$35.00**

FERTILITY

LONGEVITY

- Productive Life
- Dairy Form

MILK PRODUCTION

- Milk Yield
- Fat
- Fat %
- Protein
- Protein %

SOMATIC CELL SCORE

COAT COLOR

CHEESE PRODUCTIONS

- Kappa casein
- Beta casein
- Beta lactoglobulin

GENETIC RECESSIVES

- BLAD
- DUMPS

IGENITY Profile Plus CVM **\$55.00**

Includes the IGENITY profile plus CVM

IGENITY Profile Plus BVD* **\$37.00**

Includes the IGENITY profile and a test for BVD PI

IGENITY Profile Plus CVM & BVD **\$57.00**

IGENITY Parent Verification **\$20.00**

*Only available with tissue collectors.
Prices valid through December 2008

2	434	16	10	-0.4	1.2	0.06	0.6
1	0	0	0	0	0	0	0

What an IGENITY profile score means. IGENITY profile scores range from a low of 1 to a high of 10 for each economically important trait analyzed. Table 3 shows the value associated with each score.

*Difference calculated based on IGENITY profile score 1.

**Production in pounds per lactation.

***Combine for enhanced longevity prediction tool.

How to read an IGENITY profile.

One of the greatest values of the IGENITY profile is that all results are integrated and provided in one single profile, similar to the report shown here.

To get your IGENITY sample collection kit ask your Select Sires representative or visit www.igenity.com.
